## About the Online Seminar

The COVID-19 challenge is unprecedented & its scale still is not fully understood as it is still twisting and turning. The colleges were forced to shut the offline doors & opened up for the online mode without any preparations. In this situation of darkness a relatively optimistic outlook was inevitable. The universities & the academic institutions have to ensure quality and sustainability in teaching & learning process considering the long-term implications. The present complexity and instability of the education system is an acid test for the society. It is an undeniable fact that we faced many untold challenges like online teaching and learning the new norm, students were out of reach, govt. guidelines at short notice and many more. The dire need of the hour is to come together, discuss, share, help each other & emerge victorious. Hence it’s time to challenge the challenge of Covid - 19 with our innovative methods of teaching & learning. In this context, the functional IQAC has been continuously initiating various programs to enhance and sustain the quality in the Institute. The present national online seminar reflects one such quality mandate.
